WHOLISTIC PRACTITIONERS LIST

UPDATED 10-11

This list has been a prepared service for the convenience of our customers seeking wholistic health care practitioners. The inclusion of a practitioner on this list is not an endorsement of or recommendation by Capitol Drugs. Capitol Drugs does not recommend or assume responsibility for any health care service or advice by any individual on this list. Also, no effort has been made to evaluate or validate a practitioner's business, knowledge, competence, or method of practice. Rather, practitioners have simply defined their practice as at least partially wholistic. We encourage you to thoroughly investigate any health care practitioner in an effort to assure yourself of the person's ability to provide the services that will meet your needs.
